Andrew said: “We have grown rapidly during the last couple of years and have now established ourselves as the only UK-wide housekeeping service to holiday parks with clients stretching from Cumbria to Cornwall. We have also extended our footprint across the UK for our commercial cleaning and building and maintenance division.

“Our growth has been due to several factors including our passion for customer service, the use of innovative technology and our commitment to being a fair employer paying above the national minimum wage.

“Virtually all of our business to date has come to us through recommendation from existing customers and partners, something we are extremely proud of as a team.”

Andrew added: “While 75% of our current clients are in the holiday park sector, we are now starting to see growth in our commercial cleaning and building and maintenance division, in particular with schools, universities, housing associations and manufacturing sites.”
