

PTSG to deliver specialist services at Avonmouth development

9 months ago

[Premier Technical Services Group Ltd \(PTSG\)](#) has been contracted to provide specialist electrical services at a major new commercial scheme in Avonmouth, Bristol.

The £21.6million 13-acre plot is on the 65-acre site of Matrix 49 – a new industrial/distribution development. It continues the transformation of the current site into prime industrial, logistics and office space. Bounded to the south by Holloway Road, and to the east by Lanson Roberts Road, the development is situated in a prime location next to the M49 motorway and mainline railway line to the north. Once complete, the units and office space will provide speculative future clients with sustainable premises, for businesses working towards net zero targets.

In this contract, engineers from [PTSG Electrical Services Ltd](#) will install a new lightning protection system that will protect the development and all users in the event of an electrical storm.

PTSG Electrical Services Ltd is the UK's leading providers of lightning and surge protection systems and power earthing solutions for customers in all industry sectors. It is also one of the industry leaders in electrical compliance testing – both PAT and fixed wire testing.
