

RBS continues to bank on PTSG

1 year ago

[Premier Technical Services Group Ltd \(PTSG\)](#) has had its contract with RBS renewed; the UK's leading provider of specialist services to the built environment will continue to deliver Access & Safety services for the banking group.

RBS (Royal Bank of Scotland) is a major retail and commercial bank in Scotland and one of the retail bank subsidiaries of NatWest Group, together with NatWest and Ulster Bank. The Royal Bank of Scotland has around 700 branches, mainly in Scotland, though there are branches in many larger towns and cities throughout England and Wales. The bank is completely separate from the fellow Edinburgh-based bank, the Bank of Scotland, which pre-dates the Royal Bank by 32 years.

In the renewed contract, engineers from [PTSG Access & Safety Ltd](#) will carry out periodic testing and inspection of fall protection systems at various RBS premises. Such systems allow engineers to safely access all areas of every kind of building to carry out specialist maintenance and cleaning services.

Regular inspection and testing allows PTSG to create a database of its customers' fall protection equipment, showing a record of installation, inspection, maintenance and certification.
