

Planon welcomes Peter Gross Facility Management as a new customer

6 months ago

[Planon](#), the global leader in smart sustainable building management software, has announced that Peter Gross Bau Holding GmbH and its subsidiary company Peter Gross Facility Management GmbH & Co. KG, one of Germany's premier construction and facility management companies, has selected Planon's innovative Facility Services Business Solution (FSBS), part of the open and [IoT-enabled Planon Platform](#), to optimise and enhance its facility management services across its nationwide operations.

[Peter Gross Bau](#), a cornerstone of Germany's construction industry for over 139 years, is renowned for its expertise in managing the full life cycle of properties, from initial planning to operational optimisation. The company's integrated facility management services span technical, infrastructural, and commercial domains, ensuring long-term value and sustainable solutions for its clients.

'We are pleased that Peter Gross Facility Management has selected [Planon Field Services](#)' advanced and scalable SaaS solutions, to meet the evolving demands of its clients,' said Peter Ankerstjerne, CEO of Planon. 'The company's dedication to innovation, sustainability, and excellence resonates with our values, and together we aim to set a new benchmark for facility management services within the construction industry.'

Rainer Vollmer, Managing Director of Peter Gross Facility Management GmbH & Co. KG and Vice President of the gefma board (German facility management association), emphasised the significance of the collaboration. 'At Peter Gross Facility Management, our goal is to provide best-in-class facility management services that prioritise efficiency, sustainability, and long-term value creation. Partnering with Planon allows us to leverage cutting-edge digital solutions, enabling us to optimise operations and offer even greater transparency and service quality to our clients. This strategic partnership represents a pivotal step

in our digitalisation journey, further strengthening our position as a leader in integrated facility management.'

[Planon FSBS](#) will enable Peter Gross Facility Management to empower its clients with seamless access to property data, support sustainable building practices, and ensure compliance with evolving regulatory and market demands. Together, Peter Gross Facility Management and Planon are poised to transform facility management into a cornerstone of sustainable and innovative property management.
