

Stop Falls From Height: Join FASET's LinkedIn Safety Campaign

6 months ago

Following the recent publication of the latest HSE report, [FASET](#) is running a dedicated week-long LinkedIn campaign from January 13th to 17th, 2025, focusing on falls from height.

Working at height remains a significant cause of serious injuries and fatalities across all industries. Every year, countless workers are impacted by these incidents. This campaign aims to raise awareness of the risks, highlight employer and employee obligations, and provide crucial safety guidance to minimise the risk of falls.

Each day this week, FASET will share informative posts on LinkedIn covering:

- Common causes of falls: Identifying and mitigating hazards.
- Best practices for fall prevention: Implementing effective control measures.
- Personal protective equipment (PPE): Choosing and using appropriate safety gear.
- Safe systems of work: Developing and implementing robust procedures.
- Legal and regulatory requirements: Understanding your obligations under current legislation.

Join the conversation

- Follow FASET on [LinkedIn](#) to receive daily updates and valuable insights.
- Share our posts and engage with others to spread awareness.

- Use the hashtag #StopFallsFromHeight

Work together to eliminate falls from height in all industries!
