

Alan Gordon steps up at Exi-tite Scotland

1 year ago

Leading HVAC supplier [Exi-tite Group](#) has promoted Alan Gordon to the role of Regional Director for Exi-tite Scotland.

Alan joined the business in 2022 after nine years at Helios Ventilation to establish Exi-tite Scotland. He was appointed Regional Sales Manager for Scotland in January 2023.

Last year, Alan helped Exi-tite to become the first Passive House Institute (PHI)-certified ventilation distributor in Scotland when he passed the PHI Tradesperson examination. Passive House (or Passivhaus) buildings deliver high levels of energy efficiency and comfort for users, alongside outstanding air quality through ventilation.

He said: “The team in Scotland has grown from two employees to seven. They have helped us to make great progress over the past three years and we are looking forward to further success in 2025 and beyond.”

Exi-tite Group Managing Director Andrew Robinson said: “Exi-tite Scotland has exceeded all expectations to swiftly become a key part of the business. Alan has been integral to the success of this new venture for Exi-tite in Scotland and we feel this is only the beginning of the success in this region with the team he has now built.”
