

## It's all yellow for PTSG

7 months ago

[Premier Technical Services Group Ltd \(PTSG\)](#) has been contracted to deliver specialist electrical services at a new facility for Big Yellow Storage in north-west London.

Big Yellow Self Storage has secured planning permission for the redevelopment of 20 Cumberland Road in Queensbury to provide a five-storey self-storage facility and flexible office space.

The scheme, which is in the London Borough of Brent, will provide 8,061 sqm of self-storage space and 139 sqm of flexible office space helping to revitalise the economic function of a Locally Significant Industrial Site.

The self-storage facility will replace the tired and outdated buildings that exist, and will provide a layout that will maximise the utilisation of this brownfield site. The scale and massing responds to an emerging townscape context comprising new industrial/commercial buildings to the north and west, and a new residential neighbourhood to the south and east.

In this contract, engineers from [PTSG Electrical Services Ltd](#) will provide a new lightning protection system to protect the new facility and its users in the event of an electrical storm. In addition to designing and installing new systems, PTSG also carries out regular testing and inspection to ensure compliance. Its experienced specialists can deliver any repairs and maintenance required.
