

Fusion21 announces suppliers appointed to £700m Workplace and Facilities Management Framework

5 months ago

Following a competitive tender process, [Fusion21](#) is pleased to announce the suppliers successfully appointed to its national Workplace and Facilities Management Framework, worth up to £700 million over four years.

A total of 45 specialist firms – 40% being SMEs, have secured a place on the framework – now in its third iteration due to its previous success and designed to provide a range of hard and soft facilities management (FM) services to support the operation of public buildings.

Providing regional and national coverage, the framework offers access to supply chain innovation and efficiencies and will facilitate the outsourcing of building management contracts, enabling organisations to focus on their core activities.

The framework is split into four lots:

Lot 1 FM Principal Contractor (Total FM)

Lot 2 Cleaning and Washroom Services

Lot 3 Security Services

Lot 4 Building Engineering Services

Peter Francis, Group Executive Director (Operations) at Fusion21 said: “Having listened to member and supplier feedback, we’ve streamlined previous lots to create a new generation of the Workplace and Facilities Management Framework, suitable for various building types and covering single sites to national portfolios.

“Working with a team of technical procurement experts and pre-qualified suppliers, our members will be supported to deliver increased operational efficiency, while benefiting from a fast route to market and flexible call-off options.

“As with all Fusion21 frameworks, this latest framework enables our members to deliver social value they can see in communities, aligned with their organisational priorities.”
