

Orbis Introduces RapidCam

1 year ago

[Orbis Protect](#), a leader in protection solutions for property, people, and assets, is proud to announce the launch of RapidCam, an innovative, portable surveillance solution powered by Orbis AI. Designed to tackle the unique security challenges faced by the property sector, RapidCam offers real-time monitoring, proactive threat detection, and the flexibility to adapt to any site.

Protecting What's Valuable

RapidCam embodies Orbis's mission to "Protect What's Valuable." This innovative solution supports the property sector by delivering tailored, customer-centric security solutions that reduce risks, enhance compliance, and protect property value.

Ben Howard, CEO of Orbis, commented: "RapidCam reflects our commitment to innovation and meeting the needs of our customers. It's a powerful addition to our offering that aligns perfectly with our mission to protect what's valuable. By working seamlessly with our existing solutions and integrating intelligently with Orbis AI, RapidCam ensures our clients receive the comprehensive, adaptable protection they need."

Evolving With Innovative Security Solutions

As part of its ongoing strategy to lead the future of security, Orbis continues to expand its service offering through technology innovation and investment. RapidCam strengthens Orbis's ability to provide comprehensive, blended solutions, integrating seamlessly with existing services such as manned guarding and CCTV towers.

Why Choose RapidCam?

- Instant Deployment - Protect sites in minutes while waiting for full security services to be implemented.

- AI-Driven Efficiency – Filters false alarms, ensuring only genuine risks trigger alerts.
- Comprehensive Protection – 4K Ultra-HD footage, live audio challenges, and 24/7 monitoring keep properties secure.
- Sustainable and Flexible – Solar-powered and portable, RapidCam adapts to any site’s needs.
- Integrated Security – Works as part of a blended solution, enhancing existing Orbis technologies.

Committed to Protecting the Future

Orbis’s rebrand earlier this year marked a new chapter, reflecting its strategic direction and focus on customer-driven innovation. RapidCam represents the company’s commitment to delivering trusted, innovative solutions that evolve with its clients’ needs.
