

PTSG goes west to deliver fire solutions

3 months ago

[Premier Technical Services Group Ltd \(PTSG\)](#) has been contracted to deliver specialist fire solutions at Kidbrooke Village in the Royal Borough of Greenwich.

Located in the Royal Borough of Greenwich, Kidbrooke Village is one of London's most significant new housing-led developments; a £1 billion regeneration transforming the area into a new community in partnership with the Royal Borough of Greenwich and the Mayor of London. To date, over 1,900 new homes have been delivered including 773 affordable homes, 170 of which are specifically designed for older people.

The Kidbrooke Phase 2 West project features 85 apartments and 14 podium houses, contributing to the transformation of this vibrant community. It is in this phase that engineers from [PTSG Fire Solutions Ltd](#) will deliver commercial sprinklers.

The facts about sprinklers make compelling reading. No one has ever died in a domestic fire where a fire sprinkler system was fitted. Furthermore, 99% of fires in commercial buildings are controlled by sprinklers alone.

PTSG designs, supplies, installs and commissions fire sprinkler systems for commercial and residential settings. Utilising its nationwide network of service centres, PTSG also undertakes servicing, repairs and maintenance to all fire sprinkler installation systems.
