

Facade Access Solutions: Global Reach, Local Expertise, Exceptional Service

3 months ago

Facade Access Solutions officially launches as the global umbrella brand for Tractel, CoxGomyl, and Manntech, three industry pioneers with over 120 years of combined experience. As a leader in the facade access industry, the newly established brand enhances its commitment to delivering innovative, and customer-focused solutions worldwide.

Facade Access Solutions provides end-to-end solutions, ensuring buildings remain safe, efficient, and operational throughout their lifecycle. This full-service approach includes design, engineering, manufacturing, installation, maintenance, refurbishment, and modernisation—offering customers long-term value, cost efficiency, and peace of mind.

Service as a Core Offering: Beyond Equipment Supply

Service is not just an add-on—it's a key differentiator. Customers benefit from:

- **Maximised Equipment Lifespan** – Through preventive maintenance, inspections, and upgrades, we ensure facade access systems remain reliable for decades.
- **Reduced Downtime & Operational Costs** – Our rapid-response service teams, extensive technical archives, and readily available parts keep systems running efficiently.
- **Comprehensive Technical Support** – From drawings and wiring diagrams to machine loading data, we provide detailed technical insights to optimise performance.
- **Seamless Modernisation & Compliance** – Upgrading ageing systems to meet the latest safety, sustainability, and efficiency standards.

A Long-Term Partnership for Building Success

Facade Access Solutions doesn't just deliver equipment, we build long-term relationships with our customers. Our extensive local service teams ensure ongoing support, while our project expertise—with over 350 projects executed yearly—demonstrates our commitment to precision, safety, and innovation.

'Our multi-brand approach allows us to provide unparalleled facade access solutions to clients across the globe, ensuring adaptability and excellence in every project,' said Philippe Gastineau, Senior Executive Vice President. 'We don't just supply equipment; we provide a full-service solution—offering expert design, precision engineering, and seamless installation, backed by comprehensive servicing and proactive maintenance programs that maximise equipment longevity and safety.'

Strategic Innovation & Partnerships

Committed to shaping the future of facade access, Facade Access Solutions is integrating cutting-edge automation and digital tools such as BIM Gallery, MyBMU and AMS (Articulated Mechatronic System) to maximise efficiency and safety.

With a strong focus on automation and AI-driven maintenance, Facade Access Solutions continues to push industry boundaries. A key milestone in this transformation is its strategic partnership with Skyline Robotics, enhancing building maintenance through advanced robotic solutions that will redefine building maintenance.

Leadership & Industry Engagement

Will Bradshaw, a Chartered Engineer with IMechE, has been appointed Technical Chair of SAEMA. With extensive experience in facade access design, installation, and maintenance, gained through Manntech, CoxGomyl, and Tractel, his role reinforces Facade Access Solutions' commitment to industry standards, safety, and technical excellence.

About Facade Access Solutions

Facade Access Solutions part of Alimak Group is the global umbrella brand for Tractel, CoxGomyl, and Manntech, uniting over 120 years of expertise in facade access solutions. We provide end-to-end services from design to maintenance, ensuring safe, innovative, and sustainable building access worldwide.
