

PTSG specialists complete restoration of historic Grade II listed building in Manchester

2 months ago

Specialists from NSS, part of [Premier Technical Services Group Ltd](#) (PTSG), have completed the sensitive restoration of a Grade II listed building in Manchester, dating back to the late 19th century.

The project involved the replacement of asbestos tiles, restoration of original glazing and revival of distinctive timber vertical décor. The team worked carefully to balance the demands of modern safety regulations with the need to preserve the building's historic character.

The works were completed successfully, maintaining the aesthetic and heritage value of the building while enhancing its structural integrity for the future.

NSS, one of the largest companies within the PTSG group, provides a wide range of specialist services to ensure that buildings across all sectors remain safe, compliant and operationally efficient. These include:

- Window cleaning and glazing
- Roof and gutter maintenance
- Façade and cladding repair
- Siphonic drainage solutions
- Chewing gum and graffiti removal
- Testing of building maintenance units and fall arrest systems
- Supply of bespoke access equipment

The Manchester project underscores NSS's capabilities in delivering high-quality restoration work,

particularly on buildings of historic and architectural significance.
