

New Technical Services Director for WPS Facilities Management

8 months ago

WPS has announced the appointment of Lee Shone as Technical Services Director for Facilities Management, marking a significant milestone in the company's ongoing commitment to innovation, operational excellence, and self-delivered engineering solutions.

Bringing over thirty years of experience in engineering and facilities management, Lee Shone has cultivated a proven track record across a diverse range of sectors including pharmaceuticals, retail, corporate and the public sector. His distinguished career includes senior leadership roles at the likes of GSH, ISS, Interserve, Mitie, and Robertson FM.

This strategic appointment underscores WPS's ambition to enhance and expand its self-delivery capability. With Lee's leadership, WPS will further strengthen its in-house engineering expertise to provide clients with greater flexibility, value, and innovative solutions.

Lee is widely recognised for his dedication to mentoring emerging talent, driving operational excellence, and fostering a culture of continuous improvement. His approach aligns seamlessly with WPS FM's vision of setting new benchmarks for service delivery and growth within the facilities management industry.

Jack Prady, Managing Director for WPS Facilities Management, said: "We are delighted to welcome Lee Shone as our new Technical Services Director.

"His extensive experience, commitment to excellence, and passion for nurturing high-performing teams will be instrumental as we continue to invest in our self-delivered engineering services."

WPS Facilities Management looks forward to a new chapter under Lee's direction, confident that his

expertise will play a pivotal role in achieving strategic growth ambitions and delivering superior outcomes for clients.
