

PTSG Supports Dana Petroleum with Specialist Water Treatment Services

10 months ago

[Premier Technical Services Group Ltd](#) (PTSG), through its specialist division HCS Water Treatment, has secured a contract with Dana Petroleum, a leading name in oil and gas exploration and production.

Headquartered in Aberdeen, Dana Petroleum is a subsidiary of the Korea National Oil Corporation (KNOC) and operates across the North Sea, Africa and the Middle East. Since its foundation in 1994, the company has grown its presence through a series of strategic exploration and production ventures, including seismic operations in Cameroon's Bakassi West, initiated under a Production Sharing Contract with the Government of Cameroon in 2014.

In the newly awarded contract, engineers from HCS Water Treatment will deliver a range of water treatment solutions to support Dana Petroleum's operations. These services are designed to maintain the highest levels of water safety, ensuring compliance and protection from risks such as Legionella and other harmful bacteria.

As a trusted partner to clients in critical sectors, PTSG Water Treatment Ltd is known for combining expert knowledge with advanced technology to deliver safe, efficient, and compliant water hygiene and treatment services.

HCS and PTSG hold multiple industry accreditations including membership of the Legionella Control Association (LCA), and certification to ISO 9001, 14001, and 45001 standards. The business is also recognised by Constructionline, CHAS, SafeContractor, and the Source Testing Association (STA).

This latest partnership reflects PTSG's continued expansion in high-hazard sectors, providing essential support to some of the world's most complex and regulated industries.
