

GSH Group Welcomes Stuart Cameron as Group Director of Operations

8 months ago

[GSH Group](#), globally-recognised Integrated Facilities Management provider, has announced that Stuart Cameron will be joining as Group Director of Operations.

Based in Scotland, Stuart will be working with GSH's global business units to streamline and enhance their operations and service delivery. With over 20 years of experience, Stuart brings extensive first-hand knowledge in operating FM accounts and portfolios with a focus on his core competencies in engineering and accounting.

Stuart started his career with the Ford Motor Company where he spent four years working in various roles in Ford locations across the UK and Europe. In 2003, Stuart came to work with GSH as an operations specialist supporting former GSH UK clients like Hewlett Packard, IKEA, and NAGE/CYBG. During his 12-year tenure with GSH, he advanced through a series of roles including Contract Manager, Commercial Manager, Key Account Manager, Key Account Director, and finally Director of Operations Europe.

In 2015, Stuart transitioned from GSH to ISS, where he spent a decade honing his skills in operational leadership. While at ISS, he served as Director of Operations of United Kingdom and Ireland, and for Portfolio Accounts. However, as events in life often come full circle, GSH and Stuart reconnected in 2025 whereupon Stuart accepted his new role as Group Director of Operations.

GSH welcomes Stuart's arrival to the team and is confident in his ability to instil positive impacts on the business moving forward.
