

Toolbank wins Burg-Wächter's padlock challenge at Pavestone Rally

3 hours ago

[Burg-Wächter](#) has announced that Toolbank were the very worthy winners of their Padlock Challenge at this year's epic Pavestone Rally.

Following a gruelling – but fun and fancy-dressed – rally across northern Europe, taking in some of the region's most beautiful sights, Burg-Wächter's Padlock Challenge was waiting for the teams to complete at in Amsterdam, where the rally finished.

Each crew had been given their own padlock with one of five possible combination codes etched onto it. The codes, all added together, would provide the combination code that would open the safe containing a prize of £150. It was Toolbank who cracked the code, opened the safe and won the prize! And, as a bonus, since they donated their prize to the Pavestone Rally, Burg-Wächter doubled it to £300!

Andrew Field, Managing Director at Burg-Wächter UK said 'The Pavestone Rally is always a fun event and we are very happy to be able to support it, especially as this year money is being raised for five deserving charities – Teenage Cancer Trust, Variety, Crash, Lighthouse and the Marine Conservation Society. Congratulations to the Toolbank team for winning our Padlock Challenge!'
