

Lovat's appointed to deliver Commercial Heating Framework for Fife Council

6 months ago

[Lovat's Group Ltd](#) has been successfully appointed to deliver the Commercial Heating Framework for Fife Council.

This significant contract covers an initial five-year term, with the potential for a three-year extension, and has an estimated value of £8 million. This award allows the Group to provide the Council with reliable, efficient, and sustainable heating solutions across its entire estate.

The new framework further strengthens Lovat's Group's established presence in Fife, where the company is already trusted to deliver both the Commercial Catering and Air Conditioning & AHU contracts. Collectively, these contracts highlight the depth of the Group's technical expertise and the confidence Fife Council has in its ability to deliver essential building services that support local communities.

For Lovat's Group, this achievement demonstrates not only the strength of its engineering capabilities but also the dedication of its staff, the resilience of its delivery model, and its ongoing commitment to quality, safety, and sustainability.
