

PTSG to deliver specialist lightning protection at Azimghur Barracks

2 months ago

[Premier Technical Services Group Ltd](#) (PTSG) has been appointed by Concept Electrical to provide comprehensive earthing and lightning protection services at Azimghur Barracks in Wiltshire.

Located on the former RAF Colerne site, Azimghur Barracks has a long and distinguished military history. Once home to the 21 Signal Regiment, Royal Signals, and a detachment of Air Cadets, the facility remains an important part of the region's defence infrastructure. The Ministry of Defence has outlined plans to release the site for mixed-use development, with the Army set to vacate by 2029.

Engineers from PTSG's Lightning Protection Installations Division will deliver a full site-wide system to ensure robust protection for personnel and assets.

PTSG is recognised as the UK's leading provider of lightning and surge protection, offering services that cover design, installation, testing, inspection, and maintenance of complete earthing and protection systems.

As part of its broader capability, PTSG operates through five specialist divisions – Access & Safety, Electrical Services, Building Access Specialists, Fire Solutions, and Water Treatment – enabling the Group to provide fully integrated services to more than 30,000 customers nationwide.
