

Ranger Fire and Security further strengthens Irish presence with acquisition of Limerick-based Prestige Detection Systems

8 months ago

[Ranger Fire and Security](#) has announced its acquisition of Limerick-based [Prestige Detection Systems Ltd](#) (PDSL), further strengthening the Group's presence in Ireland.

Established in 2005, PDSL is a leading provider of fire, security and emergency response systems for businesses and community service providers throughout Ireland, with a particular focus on the Munster region and Galway. The company has built a strong reputation for technical expertise and compliance with the highest design and installation standards.

PDSL's experienced team works across a diverse range of clients. Its reputation for quality services and long-term customer partnerships aligns closely with Ranger's strategy for building a network of trusted, customer-focused fire and security service providers across both the UK and Ireland.

Managing Director Dave Enright, who brings over 35 years of experience in the fire and security industry, will remain in post along with the rest of the leadership team, continuing to oversee operations and enhance team capabilities in order to continually improve the customer experience.

The acquisition of PDSL will bring significant strategic benefits for Ranger, including:

- Geographic expansion into Ireland's west coast, strengthening coverage in Munster and Galway.
- Enhanced service offerings, adding active fire and electronic security capabilities that complement Ranger's existing services and enable greater cross-selling opportunities.
- Strong leadership and customer relationships, bringing proven expertise and trusted partnerships with multinational clients that offer significant growth potential.

- Operational efficiencies by reducing engineer travel times across Ireland through closer regional collaboration with other Ranger businesses.

Mark Bridges, CEO of Ranger Fire and Security, said: “The addition of PDSL to Ranger marks another key milestone in our expansion across Ireland. Dave and his team bring exceptional experience, technical skill and a well-earned reputation for excellence that will help us further enhance Ranger’s services.

“The team’s focus on compliance, customer service and quality aligns perfectly with our mission to be the one-stop provider for fire and security services across the UK and Ireland.”

Dave Enright, Managing Director of Prestige Detection Systems Ltd, said: “We’re excited to join the Ranger Group and look forward to working alongside some of the most respected businesses in the industry.

“This partnership will allow us to continue delivering the same high-quality, customer-focused service that our clients expect, while gaining access to wider expertise, resources and cross-selling opportunities that Ranger offers.”

PDSL’s addition marks Ranger’s twelfth acquisition since its launch in early 2024, and its fourth in Ireland, following the acquisitions of [KSS Fire Suppression](#), [B-Safe Group](#) and [Aqua Fire Prevention](#).

With backing from [Hyperion Equity Partners](#), Ranger is on a mission to become the leading one-stop provider for fire and security services across the UK and Ireland. Through strategic acquisitions and investment in technology and talent, Ranger offers a comprehensive range of services at a regional and national level, all while providing a seamless customer experience.
