

The Clean Space volunteers at Paddington Church as part of its social initiative

6 months ago

[The Clean Space](#), one of the UK's leading commercial cleaning companies, has extended its commitment to community impact by providing a complimentary deep clean at the Church of St Mary Paddington Green.

A team of 10 volunteers from The Clean Space took part in a comprehensive deep clean of the historic church, paying particular attention to high-level areas. Located in St Mary's Square, London, the church plays an important role within the Paddington community, and The Clean Space team were proud to contribute their time and expertise to help preserve this local landmark.

Fr Christopher Stoltz, Vicar of the Church of St Mary Paddington Green, said: "We are incredibly grateful to The Clean Space for their generosity and hard work. The deep clean has made a huge difference to our church environment, allowing us to welcome our congregation and visitors into a beautifully refreshed space."

Ricardo Ferreira, Operations Director at The Clean Space, added: "At The Clean Space, we believe that our responsibility extends beyond maintaining clean buildings, it's about making a meaningful contribution to the communities we serve.

"Volunteering at the Church of St Mary Paddington Green is part of our broader social commitment to creating positive change and giving back where it's needed most. By rolling up our sleeves and leading by example, we continue to champion responsible practices within the commercial cleaning sector, making a lasting difference in the communities we serve."

This initiative forms part of The Clean Space's Environmental, Social, and Governance (ESG) strategy,

which focuses on sustainable operations, social responsibility, and community engagement. Through its Social Initiatives Committee, the company continues to lead by example, championing responsible practices and supporting local projects that promote inclusivity, wellbeing, and environmental stewardship.
