

Harmony Fire Appointed to £100 Million NHC Procurement Active Fire Framework

4 months ago

[Harmony Fire](#) has added to its growing tally of public sector framework appointments by securing a coveted place on the £100 million NHC Procurement Active Fire Framework. The four-year deal encompasses consultancy, supply and installation, servicing and fully managed services, and is available to a wide range of public sector organisations across the UK.

Harmony Fire was successfully appointed to Lot 1 - Fire Products Supply and Installation, Lot 2 - Consultancy and Lot 3 - Servicing, with the national life safety specialist selected to deliver consultancy services, alongside the design and installation of fire detection, smoke control, sprinkler systems and emergency lighting. Within the essential servicing Lot, Harmony Fire was successful in sprinkler, misting and emergency lighting maintenance, as well as fire servicing and maintenance and minor and remedial works.

NHC Procurement has over 500 member organisations who manage social housing tenancies, as well as NHS Trusts, education institutions, other public sector bodies and charities. The Active Fire Framework enables member organisations to efficiently engage and procure vital life safety projects with sector specialists that have met rigorous quality assurance and competence standards.

Lee Goodenough, Director at Harmony Fire, said: "Partnering frameworks continue to provide public sector organisations with a highly efficient and fast-tracked pathway to procuring essential life safety works. Our appointment to the NHC Procurement Active Fire Framework demonstrates our national capability as a full service life safety specialist, positioning Harmony Fire at the forefront of fire safety consultancy, design and delivery and maintenance solutions."

This is the latest high-profile partnership for Harmony Fire, recently securing frameworks with Fusion 21, Royal Borough of Kensington and Chelsea (RBKC) and its reappointment to the CHIC Fire & Building Safety Framework and winning a coveted place on the NHS Shared Business Services framework. The life safety specialist is also a framework partner with Guinness Partnership, Notting Hill Genesis, Places For People and Hyde.
