

Peartree Cleaning Services Launches 'Day One Starter Kit'

4 months ago

[Peartree Cleaning Services](#) has reinforced its commitment to investing in its people by launching an enhanced support package available to every employee from their very first day.

As part of this initiative, every employee will receive a comprehensive welcome pack, a multi-language new starter kit, and a pair of premium Skechers work shoes. The footwear will be provided to all team members who are on their feet for more than five hours per shift – a practical investment that prioritises comfort, safety, and wellbeing.

The multi-language starter kit and downloadable resources ensure all colleagues, regardless of background or first language, can access essential information from day one. When combined with the new starter materials and premium footwear, this package represents a unique and people-first approach within the industry.

Nichola Underwood, People Director at Peartree Cleaning Services, commented: “At a time when many cleaning providers are tightening budgets or reducing staff benefits, Peartree is taking the opposite approach and increasing investment in our people. Our teams are our greatest asset, and this initiative reinforces our dedication to supporting them from their very first day with us.”

This initiative aligns with Peartree’s longstanding commitment to employee development, training, and apprenticeships, demonstrating its mission to elevate industry standards and champion the people who deliver excellence every day.
