

## Stadium Support Services Announced as Official Projects Partner of Worcestershire County Cricket Club

2 months ago

[Stadium Support Services](#), a leading provider of specialist projects and facilities management services, has announced a new three-year partnership with Worcestershire County Cricket Club.

The agreement sees the company appointed as Official Projects Partner for the 2026 season and beyond.

The partnership will see Stadium Support Services featured across Worcestershire County Cricket Club men's and women's matchday kits throughout the season, including T20 and the One Day Cup.

Joe Tromans, Chief Revenue Officer at the club, said: "We are committed to delivering the best possible visitor experience on matchdays and beyond, while celebrating the heritage of New Road and continually improving our facilities.

"Working with Stadium Support Services and drawing on their extensive sports sector experience will help us deliver innovative solutions across the venue. We look forward to building a long-term relationship."

Cricket remains one of the UK's most established professional sports, with the county game forming the backbone of the structure. As one of the leading county clubs, Worcestershire County Cricket Club plays a central role in the professional game across all formats.

For Stadium Support Services, the partnership reflects a shared commitment to high performance, professionalism and long-term investment in sporting environments. With offices in the Midlands, the Worcestershire County Cricket Club is a natural partner for Stadium Support Services.

Scott Hudson, Managing Director at Stadium Support Services, said: “This partnership is about alignment. Worcestershire County Cricket Club operates in a high-performance, high-pressure environment where standards, safety and delivery matter - the same principles that underpin how we work.

“We’re proud to support the club both on and off the pitch this season and to be working with a team that shares our approach to professionalism, resilience and long-term thinking.”

Ashley Giles, Chief Executive Officer at Worcestershire County Cricket Club and former England cricketer, added: “Having met with Scott and the team, it’s clear Stadium Support Services brings deep experience in delivering projects within complex stadium environments.

“Their approach, expertise and understanding of how venues operate in live conditions align closely with our needs, both for short-term works and longer-term plans for the club. We’re pleased to welcome them as Official Projects Partner and look forward to working together.”

The partnership will see Stadium Support Services supporting Worcestershire County Cricket Club with projects, maintenance and compliance across the next three seasons, with further activations to be announced.
