

## PTSG Appointed to Eastern Procurement Fire Doors Framework

2 months ago

Specialist fire door and passive fire protection company, Neo Property Solutions, a [PTSG](#) company, has secured a place on Eastern Procurement Ltd's (EP) Fire Doors Lot – part of EP's latest Windows & Doors Framework – strengthening PTSG's position as a leading compliance partner for social housing providers across the East of England.

Following a competitive procurement process, Neo is among the select few appointed to the framework, reflecting the group's commitment to quality, compliance and value for money in the sector.

Eastern Procurement is a trusted, one-stop procurement partner for social housing providers across the East of England. Through the Fire Doors Lot, Neo can now support EP members with the survey, design, manufacture and installation of fire doorsets – including composite, timber and Gerda manufactured fire doorsets in accordance with BS 8213-4:2016 – ensuring fire door replacements are delivered to the highest standards of safety and regulatory compliance.

The appointment is the latest milestone in PTSG's wider social housing campaign, which brings together its five specialist divisions under one dedicated team. Housing providers working with PTSG benefit from a single point of contact – reducing contractor management burden and improving outcomes for residents.

For Neo, the framework win reflects the growing compliance obligations social landlords face under the Building Safety Act 2022, Fire Safety (England) Regulations 2022 and the Golden Thread requirements introduced for higher-risk residential buildings. Neo's repairs-first philosophy – underpinned by its directly employed specialist team, LPS 1197/BM Trada certification and asset management software – means housing providers can be confident that every inspection, repair and replacement is carried out to a

certified standard and fully documented.

Dave Knowles, Business Director for Social Housing at PTSG, said: “This appointment builds on our existing framework presence and gives social housing providers in the East of England another straightforward, compliant route to access PTSG’s expertise. It’s a strong example of what we can deliver – removing the complexity of compliance so providers can focus on their residents.”

Rick Awdas, Business Development and Marketing Manager at Neo Property Solutions said: “We’re delighted to be appointed to Eastern Procurement’s Fire Doors Framework. Social housing providers are under increasing pressure to demonstrate compliance across large, complex estates and this framework gives them a straightforward, auditable route to access our expertise. We look forward to working with EP and its members to help deliver safe, compliant buildings for their residents.”
