

The FM Power List At The Workplace Event 2026

2 hours ago

This year's Workplace Event, part of The Safety & Security Event Series, took place over the last three days at the NEC in Birmingham, and was once again a triumph.

The event brought visitors together with workplace leaders and changemakers, offering an exciting programme of content, awards and insight, including the Workplace Leaders Summit, Workplace Leaders Top 50, Knowledge Hubs, and much more.

The FM Business Daily team was thrilled to be exhibiting at the event, with a very exciting 'new-for-this-year' offering. We were on the lookout for influential senior figures from across the industry to be interviewed for The FM Power List.

In FM, leadership isn't just about the results you deliver, it's also about whether the market sees you delivering them. The FM Power List is a definitive record of the individuals who are actively shaping the UK FM sector.

We aren't showcasing companies; we're showcasing the people driving them. The decision-makers, the strategists, and the visionaries who set the standard that the rest of the industry follows.

Why visibility is your most important asset in 2026:

- Scale your influence: Connect directly with the largest verified audience in the sector: customers, peers, and potential partners.
- Reinforce your credibility: In a market where reputation is currency, being recognised as a sector leader matters more than ever.
- Lead the conversation: Those featured on the list don't just participate in the industry dialogue; they define its direction.

Leadership today is about being seen in the right rooms, among the right peers, and at the right time.
