

Cardo Group Secures Top Ranking on Pretium Framework

2 hours ago

[Cardo Group](#) has secured a first-place ranking on the Pretium Maintain Framework, strengthening its position as a trusted delivery partner for social housing providers, local authorities, and public sector organisations across the UK.

Developed by Pretium in partnership with Watford Community Housing, the Maintain Framework provides a comprehensive procurement route for responsive repairs, voids, maintenance, and wider property services.

The framework offers clients access through direct award and mini competition, designed to support practical, high-quality delivery.

Cardo has successfully been appointed to six lots across multiple regional and national lot bandings, creating a major route to market that supports regional and national growth while giving clients further access to Cardo's in-house expertise.

The appointed lots include:

- Lot 1a – London up to £5 million
- Lot 2a – South East and East of England up to £5 million
- Lot 3a – West Midlands up to £5 million
- Lot 4a – East Midlands up to £5 million
- Lot 5a – South Wales and South West up to £5 million
- Lot 9a – National up to £5 million

Alongside operational delivery, Cardo will support clients and local communities across England and Wales through employment opportunities, skills development, and volunteering – in line with its long-standing commitment to social value.

Mark Cronly-Dillon, Group Business Development Director at Cardo Group, said:

“Being appointed to Pretium’s Maintain Framework marks another significant step in Cardo’s growth and reinforces our position as a trusted partner for housing and public sector organisations.

“Clients need delivery partners who can offer compliant procurement routes and dependable operational performance. This framework creates a straightforward way for organisations to access our in-house expertise across repairs, voids, maintenance, and property services.

“If you’re a housing provider, local authority, or public sector organisation reviewing your repairs and maintenance procurement strategy, now is the time to speak to Cardo about how we can support your organisation.”
