

Armacell to Exhibit Innovative Insulation Solutions at InstallerSHOW 2026

2 hours ago

[Armacell](#), a global leader in flexible foam for the equipment insulation market and a leading provider of engineered foams, has announced its participation at InstallerSHOW 2026, taking place from 23–25 June at the NEC Birmingham. Visitors can find Armacell at Stand 5150, where the company will present its latest portfolio of high-performance insulation solutions.

At this year's event, Armacell will showcase a range of innovative solutions designed to enhance system performance, improve energy efficiency and support long-term sustainability across the built environment. Highlights include ArmaLight® Tubolit DG, a flexible polyethylene insulation solution that delivers energy savings while improving acoustic comfort in heating and plumbing applications, and ArmaFix® Ecolight Pipe Support, engineered with an environmentally friendly PET core.

Armacell will also present key products from its elastomeric foam portfolio, including ArmaFlex® Fastlink, ArmaFlex Tuffcoat, AF/ArmaFlex Evo and HT/ArmaFlex, alongside ArmaClad® Arma-Chek Wrap, its fast and flexible protective covering system.

“We are excited to return to InstallerSHOW, an essential event for connecting with industry professionals and showcasing forward-thinking insulation solutions,” said Thomas Merton, Product Manager at Armacell. “Our product portfolio continues to evolve to meet the highest performance standards while supporting energy efficiency and long-term sustainability across the built environment.”

Visitors to Stand 5150 can meet Armacell's expert team, explore its industry-leading product portfolio and gain insights into the latest advancements in insulation materials and installation efficiency.

With a comprehensive distribution network across the UK, Armacell ensures installers can access its solutions quickly and reliably through trusted local plumbers' and builders' merchants.
