

[Anchor Group Services Appointed to Lead Marble Arch BID's Street Team](#)

2 hours ago

Marble Arch London BID has selected [Anchor Group Services](#) as the new delivery partner for its frontline Street Team service.

After over ten years of grassroots support to high street businesses and the wider community, the Marble Arch Street Team is now the go-to resource for BID members across the BID area, from Park Lane and Oxford Street in the south to Paddington Green in the north.

Launched in 1987 by former Merseyside Police officer Andrew Harper, Anchor Group Services has grown to become a respected provider within the facilities management sector. Taking on the running of the Street Team, Anchor Group Services brings with it a wealth of high street experience having provided security services in towns and cities such as Liverpool, Manchester, Bolton, Milton Keynes, and London.

Since its formation in 2016, Marble Arch London BID has supported pubs, hotels, shops, late night venues, restaurants, office occupiers, and schools right across the BID area, with bespoke community safety solutions, tailored advice and dedicated services that build resilience and protect our members, staff, guests and customers.

To ensure the Street Team is effective as possible the BID embeds the team with partner agencies through regular joint patrols, information sharing and intelligence gathering.

Kay Buxton, Chief Executive, Marble Arch London BID, said: "The Marble Arch Street Team, who have been with us from the outset, remains one of the most visible, accessible and trusted services provided by the BID. From helping visitors navigate the area to supporting responses to incidents of anti-social behaviour, the team helps create a welcoming environment and instils confidence across the community, including

businesses, staff, customers, and guests.

“Anchor Group Services brings with it a wealth of experience and we look forward to working with them to deliver new initiatives whilst continuing to offer much-needed support to our BID members.”

Alan Neill, Group Operations Director from Anchor Group Services, said: “We are thrilled to be partnering with Marble Arch London BID and to take stewardship of what is already an award-winning Street Team, a fantastic foundation to build upon. Here at Anchor Group Services we bring over 35 years of integrated security expertise, the intelligence of our 24/7 Control Room and eGuarding technology, and the specialist support of our PAL Protect consultancy to this partnership; all underpinned by a genuine commitment to the safety, reassurance, and experience of everyone who lives, works, and visits this iconic part of London.”
